ABDULLAH MALIK

Full-Stack Developer & AI Specialist

📍 Global / Remote 🌐 Portfolio Website 💻 github.com/AbdullahMalik17 🔥 AgentHotspot

Building the future of AI one line at a time. Specializing in Agentic AI Systems, Full-Stack Edge Development (Next.js, Python, Go), and advanced LLM integrations.

FEATURED PROJECTS & INNOVATIONS

MalikClaw 🦞

🏆 Ranked in TOP MCP Server List (March 20, 2026)

Ultra-lightweight AI Agent & Assistant optimized for $10 Linux SBCs and Android devices.

- **Achievement:** Achieved TOP MCP Server ranking globally for exceptional edge-hardware AI performance.
- **Architecture:** Go-based, delivering 99% smaller memory footprint than typical API gateways.
- **Capabilities:** Native Urdu and RTL language support for South Asian users.
- **Privacy & Security:** Operates entirely privacy-first without relying solely on cloud services.
- **Integration:** Available on AgentHotspot connecting 6,000+ MCP Servers to OpenClaw and Claude.

Agentic AI Monorepo

Core Architectures

A comprehensive monorepo showcasing state-of-the-art Agentic workflows.

- Houses complex LLM orchestrations, RAG integrations, and autonomous software workflows.
- Focus on robust scaling, observability, and environment-driven (.env) architectures.

Digital FTE & Voice Assistants

Enterprise Integrations

A suite of cutting-edge AI employees and intelligent interfaces.

- **Digital FTE – Abdullah Junior:** An automated customer success replica agent capable of handling complex queries.
- **Physical AI Platform & Voice Agent:** Hardware-connected intelligence bridging digital assistants with real-world inputs.
- **AI Code Assistant:** Tool tailored for sophisticated code generation and pair programming tasks.

TECHNICAL EXPERTISE

Languages & Core:
JavaScript/TypeScript, Python, Go, HTML/CSS.

Frontend & Full-Stack:
React, Next.js, Framer Motion, Tailwind CSS.

AI / Automation:
Agentic AI Workflows, LLMs, MCP (Model Context Protocol), RAG.

Backend & Cloud:
Node.js, Docker/Docker Compose, Vercel Postgres, Fly.io edge deployments.

OPEN SOURCE CONTRIBUTIONS

Active contributor and pioneer in the MCP ecosystem and highly-optimized edge runtime systems.

- Developed and open-sourced solutions reaching the top MCP server lists globally.
- Focus on localized AI experiences, breaking language barriers in tech through native integration.
